Availability: 40–48 hrs/week

“I help startups and businesses launch MVPs and scale web/mobile platforms.”

Professional Summary

Senior software developer with a decade of experience across web and mobile, partnering with startups and businesses to ship MVPs, modernize legacy systems, and deploy production-ready apps. Deep expertise in React Native, React.js, Node.js, MongoDB, Firebase, and AWS; comfortable owning full cycles from scoping and architecture to deployment and maintenance.

Core Skills

Frontend & Mobile: React Native, React.js, Android SDK

Backend: Node.js, Express.js, Firebase, REST APIs

Databases: MongoDB, MySQL, Postgress

Cloud & Tooling: AWS (EC2, S3), Git, Bitbucket, JIRA, Trello

Practices: Product thinking, agile collaboration, documentation & handover

Freelance Experience

Freelance Full-Stack & Mobile Developer · Self-Employed · 2019–Present

Delivered web and mobile solutions for startups and businesses across SaaS, fintech, and consumer domains.

Contract Clients

HomeHub | 2021–Present — Fintech & construction SaaS: loan disbursement for banks and a lead management workflow. Designed scalable dashboards and backend services. (React.js, Node.js, MongoDB, AWS)

Dafy, India | 2023–2024 — Chauffeur and user apps with secure authentication and cloud-backed infra. Delivered intuitive UI/UX and led development to production launch. (React Native, Node.js, Firebase)

Startup Crafters | 2023 — Modernized SaaS by migrating legacy systems to React + Node. Improved backend performance and scalability. (React.js, Node.js, MongoDB)

App Inventors | 2019–2021 — Multiple apps across fintech and healthcare, including Figr (personal finance/coaching) and Innorm (doctor consults with video & chat). Delivered workflows and documentation. (React Native, Node.js, Firebase, MongoDB)

Independent Projects

Stade App | 2021–2024 — Co-founded sports-tech platform with thousands of active users. Built real-time features. (React Native, Firebase, Node.js)

Dee Dee Finance | 2020 — Finance app for field agents to manage loans and enquiries. (React Native, PHP, MySQL)

Client Tracker | 2020 — Mobile solution for employee visit check-ins and client radius search. (Android, PHP, MySQL)
